

Let's make... Sula's Wings

You will need:

- The wings template
- Glue (Pritt Stick or PVA)
- Safety scissors
- Elastic ribbon
- Anything you like to decorate your wings!
- Hole punch

Instructions:

Step 8. Keeping the wings folded, thread the elastic ribbon through both holes creating a loop and then tie the ends together in a knot.

Step 9. You can now unfold the paper to reveal your beautiful fairy wings...

It's time to make some

sparkle magic!

Step 1. Cut out each of the fairy wings from our template.

Step 2. Take a separate piece of paper and cut out two squares about 6 x 6cm each.

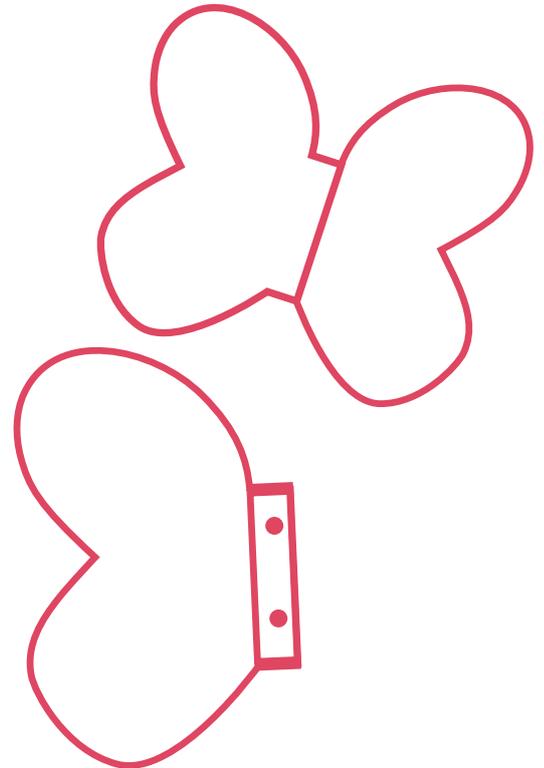

Step 3. Lay the two wings side by side with the straight edges facing each other and overlapping just a bit.

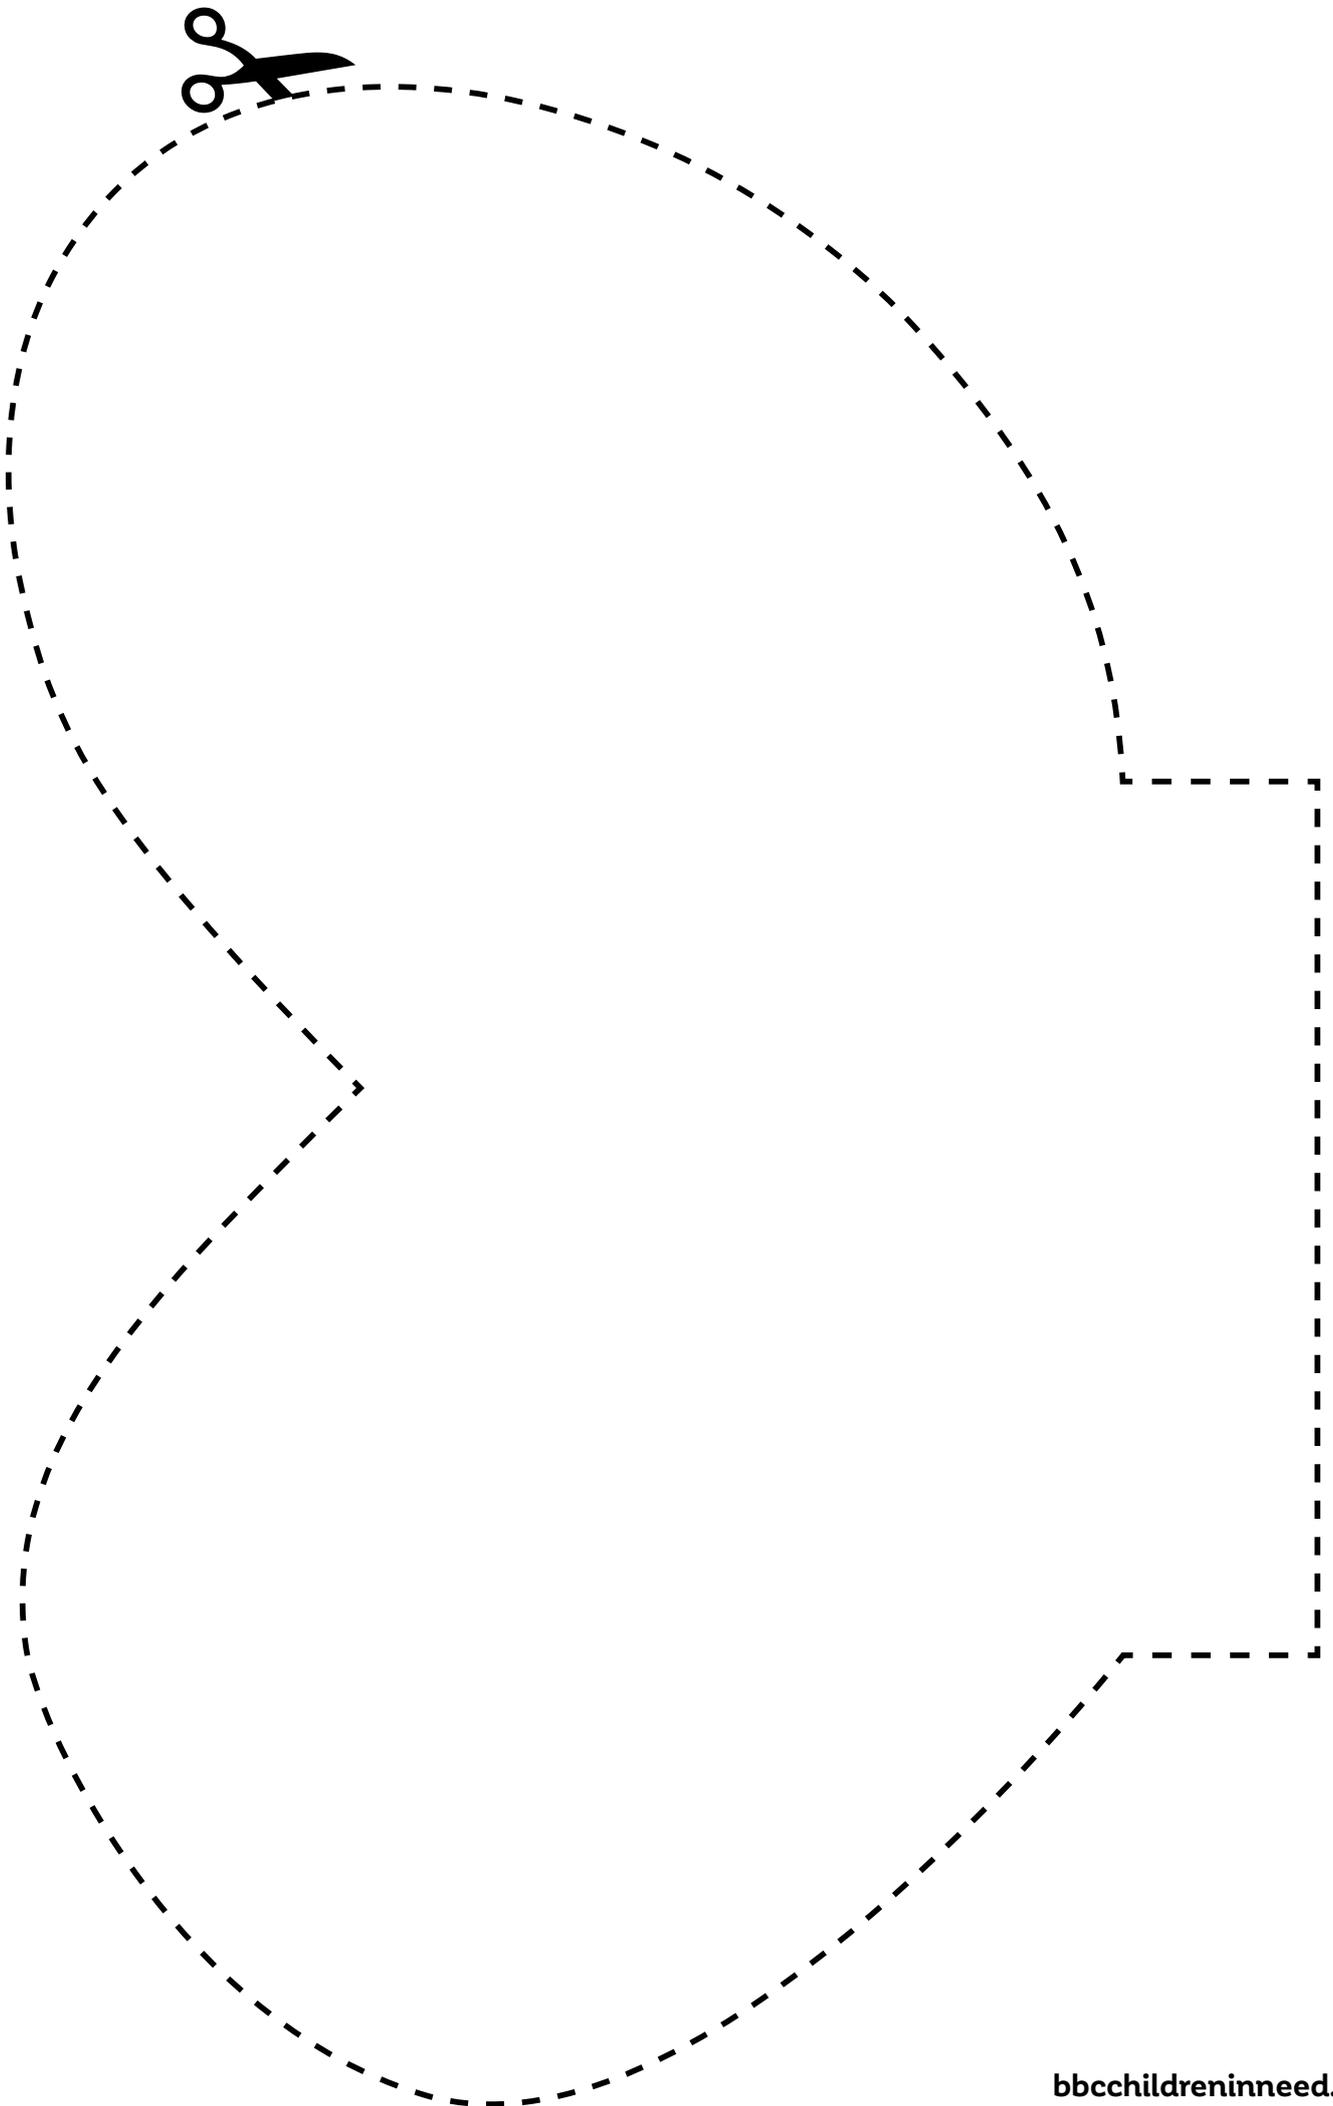

Step 4. Paste glue on one side of one of the paper squares and stick it down in the middle of the wings, so that they are held together.

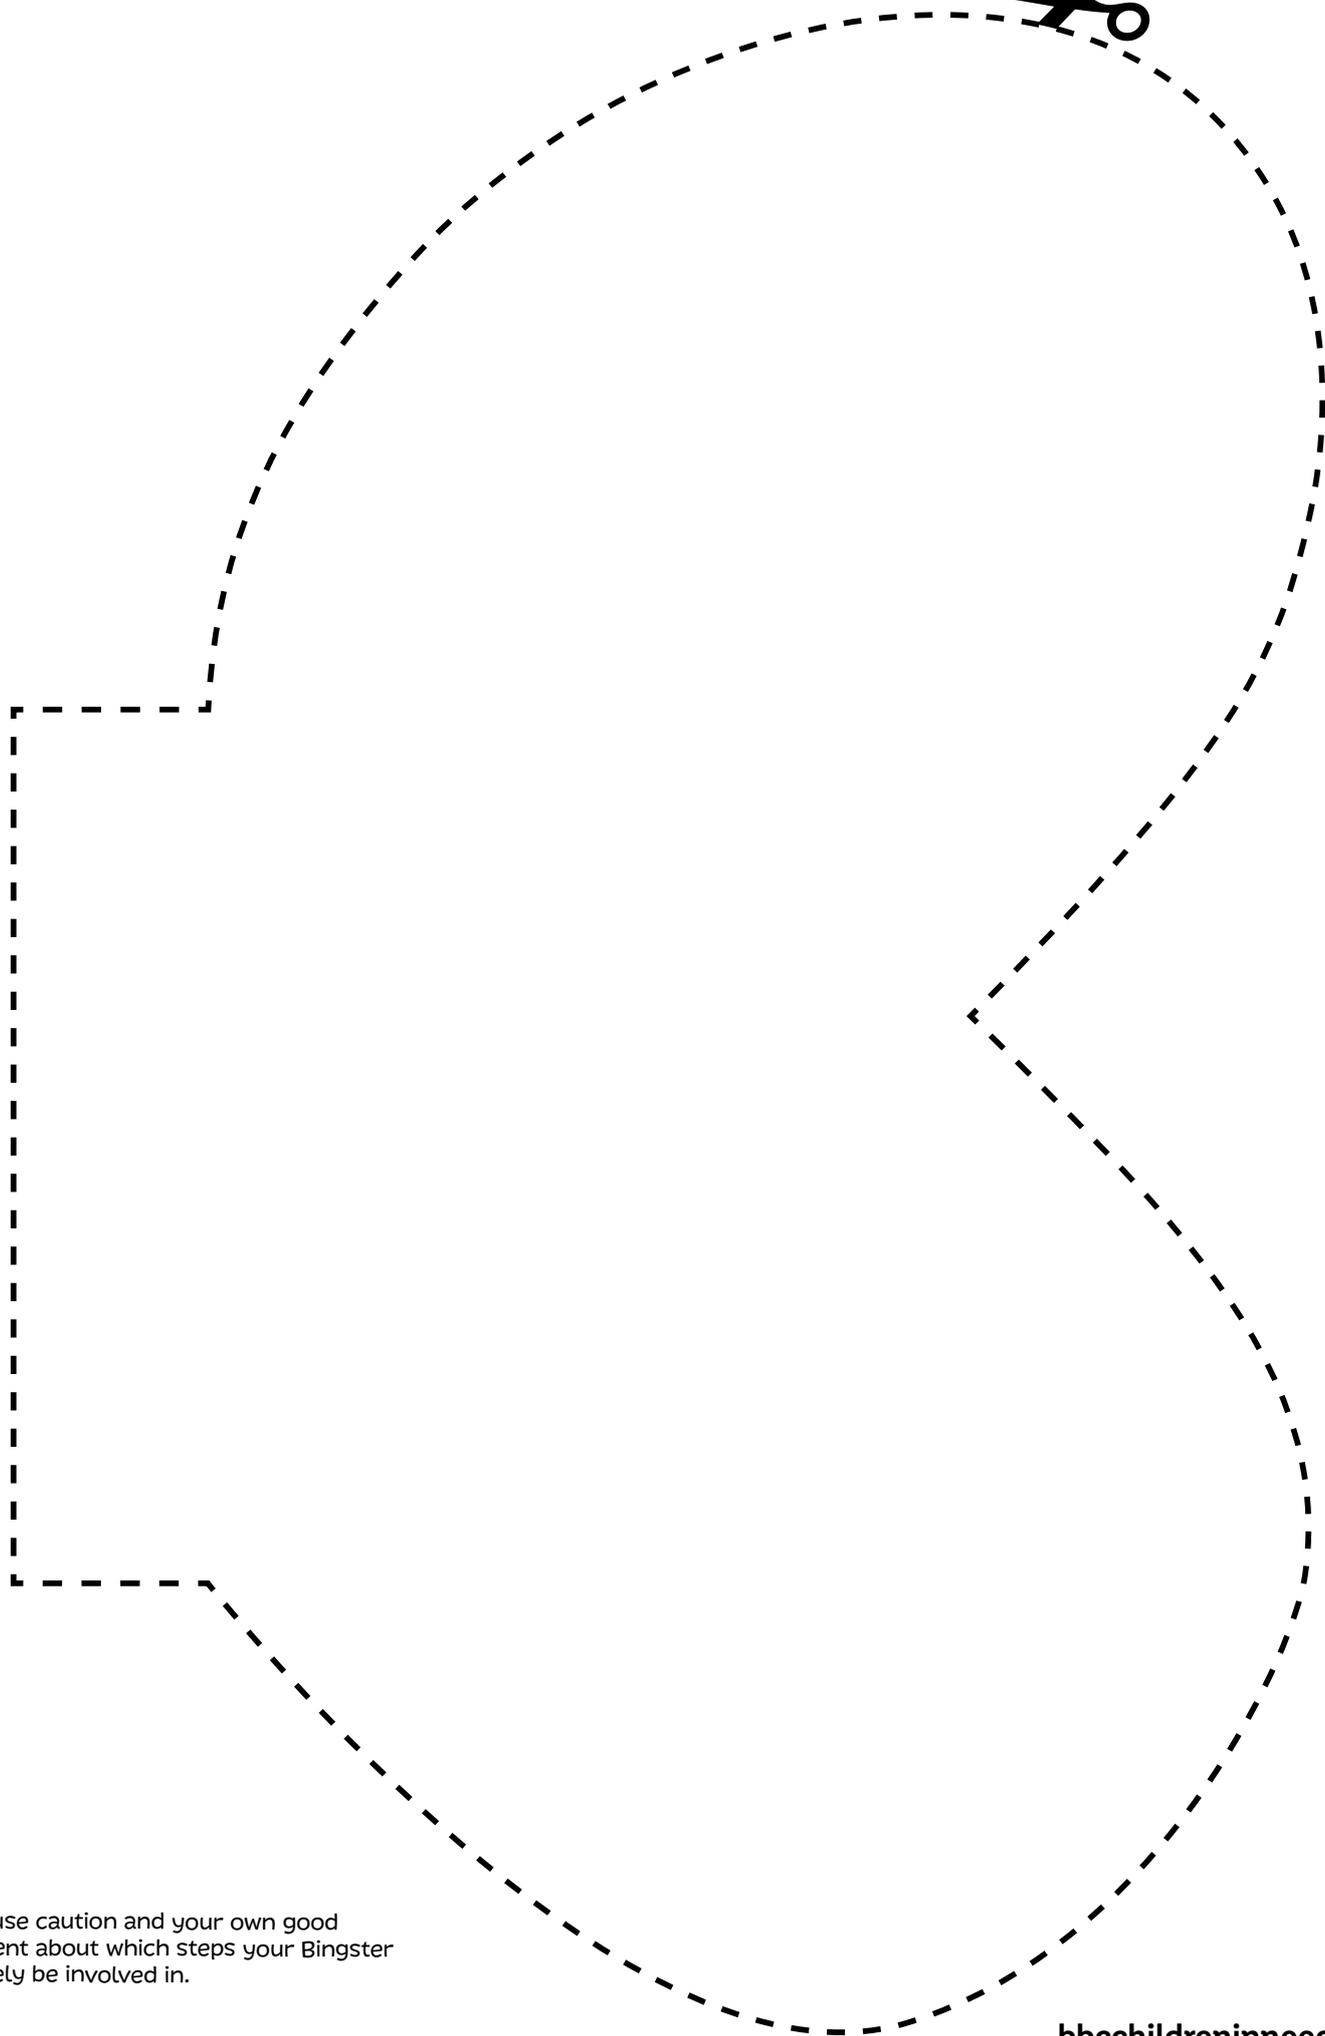

Step 5. Flip the wings over and stick the other square of paper in the same position, on the other side. Once the glue has dried, your two wings should be firmly attached and ready for decorating!

Step 6. Now your Bingster can decorate the wings to add some extra special fairy magic! You could try adding glitter or sequins or use gold and silver pens for some extra sparkle.

Step 7. When your Bingster has finished decorating, fold the wings in half. Use a hole punch to make two holes along the folded edge of the wings. The holes need to come in about a centimeter away from where the wings fold.

Please use caution and your own good judgement about which steps your Bingster can safely be involved in.
